REASONS FOR ALLOWANCE

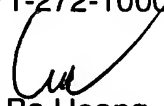

The following is an examiner's statement of reasons for allowance: allowance of claims 21-23 and 25 is indicated because as noted in the previous Office Action, while the patent to Fouts, Jr. et al discloses a conductive polymer composition exhibits a volume resistivity of less than 10^{-3} ohm-cm at 25 °C, the prior art of record does not show or fairly suggest the claims as amended directed to such a combination having the particular resistivity at 25 °C and the transverse conductive element having metal recited in the manner according to claim 21, such transverse conductive element arrangement as recited in claim 23, the particular resistance and dimension as recited in claim 22 and the apertures defined in the manner recited in claim 25. Also none of prior art submitted in the IDS filed August 22, 2006 shows such combination with the recited transverse conductive element as set forth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu Ba Hoang whose telephone number is (571) 272-4780. The examiner can normally be reached on Mon-Thu from 6:00AM to 6:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin Enad can be reached on (571) 272-1990. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
